<i>cat. no.</i>	<i>amount</i>	<i>note</i>
STS-PHR 5	5mg	powder

Purity: >90%

Protease inhibitor specific for thermolysin and other metalloproteases. Also effective inhibitor of collagenase. Working Concentration: 5-500um

Formulation

Molecular weight

543.5

Solubility

Soluble in DMSO and methanol

Storage

Store dry at -20°C.
