

> Protease Inhibitor Cocktail III

Protease Inhibitor Cocktail III for mammalian cells

Lyophilized blend of protease inhibitors optimized for mammalian cells. Cocktail makes 1 ml of 100X concentrate.

Specificity:

Serine Proteases, Cysteine Proteases, Trypsin
like proteases, Aspartic Proteases,
Aminopeptidases

Contains:

AEBSF, Aprotinin, Bestatin, E-64,
Leupeptin, Pepstatin A

Storage

Store at -20°C

FOR RESEARCH USE ONLY
